

# Lessard-Sams Outdoor Heritage Council

## Laws of Minnesota 2009 Final Report

**Date:** June 22, 2015

**Program or Project Title:** Aquatic Management Area Acquisition, Phase 1

**Funds Recommended:** \$5,748,000

**Manager's Name:** Patrick Rivers

**Organization:** DNR

**Address:** 500 Lafayette Road

**City:** Saint Paul, MN 55155

**Office Number:** 651-259-5209

**Email:** pat.rivers@state.mn.us

**Website:** www.mndnr.gov

**Legislative Citation:** ML 2009, Ch. 172, Art. 1, Sec. 2, Subd. 5(b)

**Appropriation Language:** \$5,748,000 in fiscal year 2010 is to the commissioner of natural resources to acquire and in fee title and easement to be added to the state aquatic management area system. Acquired land must remain open to hunting and fishing, consistent with the capacity of the land, during the open season, as determined by the commissioner of natural resources. A list of proposed fee title and easement acquisitions must be provided as part of the required accomplishment plan.

**County Locations:** Becker, Beltrami, Cass, Crow Wing, Fillmore, Goodhue, Houston, Hubbard, Lake, Olmsted, Otter Tail, Pine, St. Louis, Wabasha, and Winona.

### Regions in which work will take place:

- Northern Forest
- Forest / Prairie Transition
- Southeast Forest
- Prairie
- Metro / Urban

### Activity types:

- Protect in Easement
- Protect in Fee

### Priority resources addressed by activity:

- Habitat

### Abstract:

This program permanently protected approximately 953 acres (10.3-miles) of lake and warm water stream shoreline through fee title and permanent easement acquisition and secured 73 acres (4.8-miles) of permanent habitat management easements that include angler access.

### Design and scope of work:

Aquatic Management Areas were established to protect, develop, and manage lakes, rivers, streams, and adjacent wetlands and lands that are critical for fish and other aquatic life, for water quality, and for the intrinsic biological value, public fishing, or other compatible outdoor recreational uses. AMAs provide angler or management access; protect fish spawning, rearing, or other unique habitat; protect aquatic wildlife feeding and nesting areas; and protect critical shoreline habitat, among other purposes authorized by Minnesota Statutes 86A.05, Subdivision 14.

## Guiding Principles

- >Conserve critical shoreline habitat for all fish and wildlife species
- >Conserve vital fish spawning and rearing areas
- >Provide angling and management access corridors on trout and warm-water streams
- >Provide non-motorized angler access on lakes and streams
- >Preserve examples of healthy shoreline habitats as maps for future restoration of disturbed sites.

Project dollars secured fee title or permanent easements on approximately 525 acres (5.2 miles) of lake warmwater stream shoreline, and leveraged about 427 acres (5.3 miles) of similar acquisition through partner funds. Project dollars also secured 73 acres (4.8 miles) of permanent habitat management easements that include angler access on designated trout streams, primarily in the Southeast and Northeast areas of the state. Overall priority was given to acquiring regionally significant fish and wildlife habitat that will build on existing shoreline habitat and provide angler and hunter access. Acquisitions occurred throughout the state, and depending on priorities, risk of development, and potential partners. Collaborative partnerships were promoted in order to acquire key lands.

County and Township governments were notified by the DNR when acquiring AMA's in their locale. Local support for AMA acquisition is usually substantial, and local groups commonly offer to help raise funds.

Note: Land acquisition for this appropriation incurred professional service expenses that exceeded the approved budget. During this appropriation, the state of Minnesota changed its billing software system. The change resulted in significant delays (9 months, July 2011- March 2012) in receiving bills and overspending the professional service budget line without prior authorization. We have created individual accounting budgets for each line item in approved budgets. This step and the now operational accounting system will prevent similar issues in the future.

Sources outside of OHF were also used to pay for professional service expenses. These leveraged dollars are noted in the budget table.

## Which LSOHC state-wide priorities are addressed in this proposal:

- Address conservation opportunities that will be lost if not immediately acted on
- Allow public access. This comes into play when all other things about the request are approximately equal
- Are able to leverage effort and/or other funds to supplement any OHF appropriation
- Are ongoing, successful, transparent and accountable programs addressing actions and targets of one or more of the ecological sections
- Ensures activities for "protecting, restoring and enhancing" are coordinated among agencies, non profits and others while doing this important work
- Produce multiple enduring conservation benefits
- Provide Minnesotans with greater public access to outdoor environments with hunting, fishing and other outdoor recreation opportunities
- Target unique Minnesota landscapes that have historical value to fish and wildlife

## Which LSOHC section priorities are addressed in this proposal:

### Prairie:

- Not Listed

### Forest / Prairie Transition:

- Protect, enhance, and restore wild rice wetlands, shallow lakes, wetland/grassland complexes, aspen parklands, and shoreland that provide critical habitat for game and nongame wildlife

### Northern Forest:

- Protect shoreland and restore or enhance critical habitat on wild rice lakes, shallow lakes, cold water lakes, streams and rivers, and spawning areas

## **Metro / Urban:**

- Protect, enhance, and restore riparian and littoral habitats on lakes to benefit game and nongame fish species

## **Southeast Forest:**

- Protect, enhance, and restore habitat for fish, game, and nongame wildlife in rivers, cold-water streams, and associated upland habitat

## **Relationship to other funds:**

- Not Listed

## **How will you sustain and/or maintain this work after the Outdoor Heritage Funds are expended:**

Not Listed

## **Outcomes:**

### **Programs in the northern forest region:**

- Forestlands are protected from development and fragmentation
- Improved aquatic habitat indicators
- Protect and provide access to priority aquatic habitats

#### **How will they be measured and evaluated?**

By their very nature, protection activities such as fee title and conservation easement acquisition preclude development and habitat fragmentation. Public access is also provided by these activities. Outcomes are evaluated by overall acres added to the Outdoor Recreation System.

### **Programs in forest-prairie transition region:**

- Improved aquatic habitat indicators

#### **How will they be measured and evaluated?**

Outcomes are evaluated by overall acres added to the Outdoor Recreation System.

### **Programs in metropolitan urbanizing region:**

- Not Listed

#### **How will they be measured and evaluated?**

Outcomes not requested during the first year of spending.

### **Programs in southeast forest region:**

- Not Listed

#### **How will they be measured and evaluated?**

Outcomes not requested during the first year of spending.

### **Programs in prairie region:**

- Not Listed

#### **How will they be measured and evaluated?**

Outcomes not requested during the first year of spending.

# Budget Spreadsheet

*Final Budget line item reallocations are allowed up to 10% and do not need require an amendment to the Accomplishment Plan*

Total Amount: \$5,748,000
