

**Call for Funding Requests**  
**Lessard-Sams Outdoor Heritage Council**  
**FY 2011 Appropriations**

**SUMMARY**

The Lessard-Sams Outdoor Heritage Council (L-SOHC) is charged with making recommendations to the Minnesota Legislature on appropriations from the Outdoor Heritage Fund (OHF). Through this Call for Funding Requests, the Council is seeking ideas on what to recommend for funding. This is a competitive process open to all who want to apply. Successful applicants will:

1. Read and understand L-SOHC's vision for each L-SOHC Section and the priority actions adopted by the Council and contained in this Call for Funding Requests,
2. Develop a request addressing those priorities,
3. Complete and electronically submit as an attachment to an e-mail, a Request for Funding Form found at [WWW.LOHC.state.mn.us/funding.html](http://WWW.LOHC.state.mn.us/funding.html), accompanied by the required material by **5 p.m., Central Standard Time, Monday, November 2, 2009** to: [LSOHC@LSOHC.leg.mn](mailto:LSOHC@LSOHC.leg.mn),
4. On the basis of that Request for Funding, be selected by the Council to present details of the request and answer questions before the Council,
5. Be recommended for funding by the Council, and
6. Be appropriated funds in the 2010 Minnesota Legislative Session for fiscal year 2011.

This competition is open to anyone, including but not limited to city, county, state, federal and tribal government.

The Council is currently estimating it will be recommending \$55 million in appropriations from the Outdoor Heritage Fund (OHF) for expenditure in fiscal year 2011. This estimate will be revised in November, 2009.

What follows in this document is the L-SOHC's guidelines for applicants, a blank Call For Funding Request form, on which to make a request, and directions for completing the form.

**TERMS OF THE FUNDING**

**Payment**

For non-state entities, payment is reimbursement for expenses paid. The expenses must be direct to and necessary for the program or project, as determined by the state's fiscal agent, and must protect, enhance or restore prairies, wetlands, forests or habitat for fish, game and wildlife. The funds may not be used for general organization support or seeking funding from any source. They may be used for planning and evaluating habitat programs or projects paid for with the OHF, however the evaluation and

planning expenses must be direct to and necessary for the program or project, as presented to the Council.

### **Timing**

Reimbursable expenses may be incurred on or after July 1, 2010 or the date on which the L-SOHC approves an accomplishment plan. Unless otherwise provided by the legislature during the appropriations process, the funds are available until June 30, 2012, when projects must be completed and final accomplishments reported. For acquisition of an interest in real property, funds are available until June 30, 2013. If a project receives federal funds, the time period of the appropriation is extended to equal the availability of federal funding.

## **SCHEDULE**

### **October 2009**

10-1-09 Call for Requests Issued

### **November 2009**

11-2-09 Deadline for Requests to Council for consideration as 2010 session recommendations (5:00 p.m.)

11-12-09 Select Requests for Hearing in December

11-23-09 Hear Requests

### **December 2009**

12-8-09 Hear Requests

12-9-09 Hear Requests

### **January 2010**

01-15-10 Recommendations to Minnesota Legislature

## **GRANT PURPOSE AND GRANT CRITERIA**

### **The Mission of the Outdoor Heritage Fund**

The mission of the OHF, as specified in the state Constitution, is to: "protect, restore, and enhance wetlands, prairies, forests, and habitat for fish, game, and wildlife."

In pursuit of that mission, the L-SOHC will use the following definitions in the call for requests for the recommendations to the 2010 Legislature.

**Restore:** action to bring a habitat back to a former state of sustaining fish, game or wildlife, with an ultimate goal of restoring habitat to a desired conservation condition.

**Protect:** action to maintain the ability of habitat and related natural systems to sustain fish, game or wildlife through acquisition of fee title or conservation easements.

**Enhance:** action to increase the ability of habitat and related natural systems to sustain and improve fish, game or wildlife in an ecologically sound manner.

### **L-SOHC Recommendation Goal**

The L-SOHC, by January 15, 2010, will recommend to the Minnesota Legislature appropriations from the Outdoor Heritage Fund that are:

- Consistent with the Minnesota Constitution and state law.
- Supported by the Legislature, the Governor and the public.
- Sure to attain the immediate objectives of the strategic framework and plan for the Outdoor Heritage Fund.
- Are priority actions identified by the Council.

### **Principles Guiding the L-SOHC Process for Developing OHF Expenditure Recommendations**

This competition will:

1. Be transparent to and accessible by the public.
2. Protect and advance the public interest.
3. Recommend expenditures for protection, enhancement, and restoration projects that are grounded in science and reflect “best practices” for resource management.
4. Take into account existing conservation planning efforts and delivery systems.
5. Encourage efficient and effective conservation solutions.
6. Be understandable by the public.
7. Over time, attempt to ensure conservation benefits are broadly distributed across the L-SOHC Sections, consistent with scientific principles and priorities identified in the state’s species-, habitat-, and resource-specific plans as well as its statewide conservation plans.
8. Provide opportunities for, and consider, public input.

### **Minimum Qualifications and Request Attributes**

The L-SOHC will only consider funding requests that:

1. Are consistent with the uses of the OHF as specified in Article XI of the Minnesota Constitution and Minnesota Statutes and Laws.
2. Show the ability to produce significant, measurable, and enduring resource and/or habitat outcomes.
3. Clearly identify specific resource and/or habitat outcomes, performance measures, and a plan for measuring, evaluating and publicly reporting these outcomes over time.
4. Reflect the best available science regarding resource and/or habitat enhancement, restoration, and protection.
5. Where possible and appropriate use native plant material.
6. Restore or enhance resources only on property under permanent protection of public fee ownership or conservation easement. This includes tribal lands under federal trust arrangements.
7. Identify funding necessary to fully implement the project/program(s), and have a plan to sustain the resource and/or habitat outcomes specified, including a plan to finance the necessary activities.
8. Limit the state's exposure for additional funding for the project.
9. Have a process for ensuring transparency and access to information about the project/program in all stages of project/program implementation.
10. Show the ability to produce significant, measurable, and enduring habitat outcomes.

11. Seek funding to supplement (not replace) customary or usual funding sources.
12. Only acquire permanent easements, if proposing less than fee simple acquisition in real property.
13. Ensure that land acquired by fee with money from the OHF is open to the public taking of fish and game during the open season unless otherwise provided by law.
14. Commit to erect and maintain signage, consistent with Minnesota Laws 2009, Chapter 172, Article 5, Section 10, crediting the OHF with support for protected, restored, or improved resources.
15. Commit to replace OHF protected resources converted to a use other than that intended in the OHF appropriation with land of at least equal market value that is in a reasonably equivalent location and reasonably equivalent useful conservation purpose.
16. Agree to not transfer the public interest in OHF fee and/or easement protected land without written approval.
17. Are associated with established land acquisition programs, if the request is to acquire fee simple title or a permanent conservation easement of real property.
18. Are associated with established land acquisition programs that use explicit criteria for evaluating the parcel's habitat potential, if the request is to acquire an interest in real property.
19. Are for a minimum of \$150,000.

**The Council will also use these minimum screening criteria. They must be met by requesting organizations. Requesting organizations must:**

1. Have a record of successful management and implementation of project/program(s) similar in scale, scope, and complexity to the project/program(s) being requested.
2. Have demonstrated the ability to identify and establish the financial and managerial controls needed to successfully and fully implement the proposed project/program.
3. Have an up-to-date external financial audit with no serious negative findings.

### **STATEWIDE PRIORITY CRITERIA**

The L-SOHC will give priority consideration to requests that:

1. Are ongoing programs addressing actions and targets of one or more of the L-SOHC Planning Sections.
2. Produce multiple conservation benefits.
3. Are able to leverage effort and/or other funds to supplement any OHF appropriation.
4. Allow public access. This comes into play when all other things about the request are approximately equal.
5. Address conservation opportunities that will be lost if not immediately acted on.
6. Restore and enhance state-owned WMAs, AMAs, and SNAs.
7. Use a science-based strategic planning and evaluation model to guide protection, restoration and enhancement, similar to the United States Fish and Wildlife Service's Strategic Habitat Conservation model.  
See websites below for discussion of Strategic Habitat Conservation  
<http://www.fws.gov/science/doc/SHCTechnicalHandbook.pdf>  
[http://www.docstoc.com/docs/document-preview.aspx?doc\\_id=699866](http://www.docstoc.com/docs/document-preview.aspx?doc_id=699866)
8. Consider locations of state endangered, threatened and special concern species; habitats for species of greatest conservation need as identified in the Minnesota State

Wildlife Action Plan; and Minnesota County Biological Survey data on sites of biodiversity significance.

9. Provide Minnesotans with greater public access to outdoor environments with hunting, fishing and other outdoor recreation opportunities

The above statewide criteria will be used by L-SOHC members to evaluate proposals.

## SUBSTATE REGIONS TARGETS AND PRIORITY ACTIONS

### L-SOHC Sections

Minnesota Law specifies “The council shall use the regions of the state based upon the ecological regions and subregions developed by the Department of Natural Resources and establish objectives for each region and subregion to achieve the purposes of the fund outlined in the state constitution.” For purposes of developing the framework that will be used to guide expenditures from the OHF over the next 25 years, the Council has identified five Lessard-Sams Outdoor Heritage Council Sections (L-SOHC Sections). These are an aggregation of the state’s ten Ecological Sections (see Figure 1). These Sections are:

### Section Vision and Priority Actions

Beginning on the next page are the priority actions for each L-SOHC section. These and the preceding statewide criteria will be used by the L-SOHC to evaluate Requests for Funding. The Request for Funding Form addresses these Section priority actions, along with the statewide priority criteria. (Part B and Part G, Table 2) Make sure you address statewide priority criteria and section priority actions when you complete these two parts.

## **Lessard-Sams Council Funding Outcomes and Priorities**

### **Northern Forest Section**

#### **Northern Forest Section Vision:**

The Council's vision for the Northern Forest Section contains a clear view of the desired future condition for the section's forest lands, lakes and wetlands, and wildlife habitat.

Forestland should be universally accessible for forest management purposes as well as protected from development and fragmentation. Private in-holdings in public forests and key properties for habitat and stand management, adjacent to existing ownership should be acquired, with an eye toward ensuring no net loss of forestland. Of special concern is the condition of brushlands within the forestlands. These lands, along with early successional forest habitat are crucial for game species and non-game species and need restoration and enhancement work so as to ensure ample availability of this habitat type.

Lakes and wetlands supporting healthy fish populations are fundamental to the future of the Northern Forest Section. Lakes and streams with protected shoreland and restored watersheds, will produce quality warm and cold-water aquatic systems. Those resources will provide the aquatic habitat required to support excellent fish populations and other aquatic organisms.

The Northern Forest Section is home to both cherished and unique Minnesota wildlife populations. It is imperative that the wildlife habitat of this Section support those populations. Healthy wild rice wetlands and shallow lakes that provide important habitat for a wide range of game and non-game wildlife which are clearly front and center in the Council's vision. We could well see the region's wild rice production as the world's leading crop, year in and year out. These and other key habitats are envisioned to protect habitat for endangered, threatened and species of special concern and more common wildlife.

#### **Priority Actions for the Northern Forest Section Recommendations to the 2010 Legislative Session:**

1. Protect shoreland and improve critical habitat on wild rice lakes, shallow lakes, cold water lakes, streams and rivers, and spawning areas.
2. Protect forest land through acquisition or easement, to prevent parcelization and fragmentation and to provide the ability to access and manage landlocked public properties.
3. Restore and enhance habitat on existing protected properties, with preference to habitat for rare, endangered or threatened species identified by the Minnesota County Biological Survey.

## **Forest/Prairie Transition Section**

### **Forest/Prairie Section Vision:**

The Council's future for the Forest/Prairie Transition Section envisions diverse and productive remnant tracts of native prairie, forests grasslands, wetlands, lakes and rivers, and their associated fish and wildlife habitat.

The Council sees a future when ample grasses and other vegetation on shorelands and higher in the watershed keeps water on the land. This will yield clean lakes and streams, steady lake and stream levels, and improved aquatic vegetation, providing a plentiful supply of habitat for fish, game and wildlife in the Section, especially habitat for waterfowl and upland birds.

These rivers and streams and their surrounding vegetation will provide corridors of habitat including intact areas of forest cover in the eastern reaches of the Section, and large wetland/upland complexes in the more westerly areas. These wetland/upland complexes will consist of native prairies, restored prairies, quality grasslands and restored shallow lakes and wetlands.

### **Priority Actions for the Forest/Prairie Transition Section Actions for Recommendations to the 2010 Legislative Session:**

1. Protect enhance and restore wild rice wetlands, shallow lakes, wetland/grassland complexes, and shoreland that provide critical habitat for game and non-game wildlife.
2. Protect, enhance and restore rare native remnant prairie.

## **Southeast Forest Section**

### **Southeast Forest Section Vision**

The Council recognizes the Southeast Forest Section of Minnesota is a unique place, largely untouched by recent glaciers that covered most of Minnesota. The underlying karst geology and overlying remnants of the Big Woods are not found elsewhere in Minnesota. The ages have left a legacy of warm and cold water streams and rivers, floodplains, hardwood forests, remnant bluffland prairies, and striking topographic relief that provides diverse habitat worthy of protection.

In the forested parts of the Southeast Forest Section the Council sees a future of restored and protected oak savanna and mixed deciduous forest lands making up large blocks of protected property, accessible for resource management purposes.

The cold and warm water streams of the region will be protected and enhanced by work in and along streams as well as work streamside to the top of the watershed to slow runoff and keep aquatic habitat clean and productive, with prolific fish, game and wildlife populations.

Southeast Forest Section wildlife habitat will be found in large corridors and complexes of restored and protected, biologically diverse habitat typical of the un-glaciated region. As a

result the Section's endangered or threatened species will find habitat, such as goat prairies, in which to survive, alongside more common species of interest to Minnesotans. The Mississippi River and associated floodplain and bluffs, as well as the feeder streams will be an important part of this network of corridors and complexes.

**Priority Actions for the Southeast Forest Section Recommendations to the 2010 Legislative Session:**

1. Protect forest habitat through acquisition in fee or easement, to prevent parcelization and fragmentation and to provide the ability to access and manage landlocked public properties.
2. Protect, enhance and restore habitat for fish, game and non-game wildlife in rivers, cold water streams and associated upland habitat.
3. Protect, enhance and restore remnant goat prairies.

## **Prairie Section**

### **Prairie Section Vision**

The Council sees the future of the Prairie Region as vital to the future of waterfowl, grassland birds and other wildlife dependent on native and restored prairies, shallow lakes and wetlands, grasslands and other habitat of the Section. A unique component of this section are the prairie rivers, large and small, from the Red and Minnesota Rivers to their tributaries in adjacent watersheds, where the future aquatic habitat is enhanced by an increased density of grassland/wetland habitat.

This is the location of much of the remaining, unplowed native prairie and the Council believes these remaining tracts should be perpetually protected. Where possible these remnant native prairies ought to be part of large complexes, as large as nine square miles in size, of restored prairies, grasslands and wetlands that create buffers to the native prairie and the density of habitat needed by fish, game and wildlife. Key core parcels should be set aside as areas managed for game species as well as refuges for fish, game or wildlife, or endangered or threatened species, including extremely uncommon Minnesota species with unique or highly specific habitat requirements.

The Prairie Sections waters will have benefitted from revitalized and expanded shoreland buffers and work to enhance shallow lake productivity for a variety of shorebirds and waterfowl. As a result of concentrated work of this type, combined with restored and enhanced upland habitat, historically significant resources for migratory waterfowl, such as the Heron Lake and Swan Lake Watersheds will once again be important areas for all kinds of migrating birds. Likewise the Red River Valley will provide abundant wildlife habitat.

The Prairie Section is the home to a large portion of the state's wildlife-related lands. The Council sees these being fully productive in the future, as the result of restoration and enhancement of native prairie, grassland and associated waters, including the shallow lakes of the Section.

In the southeastern part of the Section there are precious remnants of the Big Woods and oak savanna that will be protected.

**Priority Actions for the Prairie Section Recommendations to the 2010 Legislative Session:**

1. Protect wetland/upland complexes, or convert agricultural lands to wetland/upland to enhance or restore existing habitat complexes.
2. Protect, enhance and restore remnant native prairie, Big Woods forests and oak savanna.
3. Restore or enhance habitat on public lands.
4. Protect, restore and enhance shallow lakes.

**Metropolitan Urbanizing Area Section**

**Metropolitan Urbanizing Section Vision**

The Council's vision for the Metropolitan Urbanizing Section is a network of natural lands in the Section providing wildlife habitat, quality fisheries, especially cold-water fisheries and a forest land base that contributes to the habitat picture.

These natural lands in the Metropolitan Urbanizing Section include complexes of restored and perpetually protected wetlands, prairies, and forests, providing habitat benefits and access. These will have core areas with protected highly biologically diverse wetlands and plant communities including native prairies. Where possible, the habitats will connect, making corridors for wildlife and species in greatest need of conservation, and hold wetlands and shallow lakes open to public recreation and hunting. The Section's game lakes will be significant contributors of waterfowl, due to efforts to protect uplands adjacent to game lakes. In the corridors, the streams, rivers and lakes will be protected by vegetative buffers along riparian areas. Remnant oak savanna will be protected and its health restored, as will forests contributing to quality fisheries. As a result cold-water streams and lakes will provide high quality fisheries within an hour's drive of the majority of the state's population. Where possible, invasive species will have been permanently eradicated.

**Priority Actions for the Metropolitan Urbanizing Area Section Recommendations to the 2010 Legislative Session:**

1. Protect, enhance and restore remnant native prairie, Big Woods forests and oak savanna with an emphasis on areas with high biological diversity.
2. Protect habitat corridors, with emphasis on the Minnesota, Mississippi and St. Croix rivers (bluff to floodplain).
3. Enhance and restore coldwater fisheries systems.

**REQUEST FORMAT**

Your Request for Funding will be combined with all others received, so it is important you follow these instructions.

APPROVED BY COUNCIL, SEPTEMBER 16, 2009

1. 8 1/2" x 11" pages; 11 pt Arial is the only font acceptable.
2. Project Title must be clearly marked on top of each page.
3. Page numbers must be centered in the footer of each page
4. The Request for Funding Form in this packet must be used.
5. No organization logos, trademarks or similar graphics may be inserted or embedded in the request.
6. Applicants must use the state map base supplied in the Request for Funding Form.
7. Applicants must use the Request for Funding Form beginning on page 10 of this document.

APPROVED BY COUNCIL, SEPTEMBER 16, 2009

Program Title:

**Request for Funding Form  
Lessard-Sams Outdoor Heritage Council  
Fiscal Year 2011**

**Directions:** Complete a copy of the Word version of this form and e-mail to LSOHC@LSOHC.leg.mn by 5 p.m. Central Standard Time, November 2, 2009.

**DO NOT INSERT ART OR OTHER GRAPHIC FILES IN YOUR REQUEST FORM ACCEPT AS PROVIDED IN PART K, THE MAP.**

You can find the Word version this form at [WWW.LOHC.state.mn.us](http://WWW.LOHC.state.mn.us)

Funds Requested (\$000s)	Council Funding Request	Out-Year Projections of Needs <i>For programs that may want to request OHF funds in future recommendation rounds, complete the columns below. One time requests enter zeros in all 3 fiscal years</i>		
	FY 2011	FY 2012	FY 2013	FY 2014
Outdoor Heritage Fund	0	0	0	0

**A. Summary** Summarize your project or program in 2-3 sentences. Typically, the paragraph should start with "Our program will." and follow with the impact on forests, wetlands, prairies or habitat for fish, game and wildlife. Then continue with methods for achieving the promised impacts

**B. Background Information**

Provide additional explanation of the recommended project or program by answering these questions:

1. What is the problem or opportunity being addressed?

Program Title:

2. What action will be taken?
3. Who will take action and when?
4. How will you coordinate this program with the other Constitutional Funding?
5. What specific habitat changes will occur if this item is funded? Be specific about and list multiple benefits if they exist.
6. When do you expect to see these changes?
7. Will your Outdoor Heritage Fund dollar request complete the planned accomplishments?  
 YES  NO  
If not, how will you finance completion?
8. How will you pay for the maintenance of the accomplishments?
9. How does this action directly restore, enhance, or protect prairies, wetlands, forests or habitat for fish, game, and wildlife?
10. If you are restoring or enhancing property, is the activity on permanently protected land?  
 YES  NO  
If yes briefly describe the kind of protection.
11. How will you ensure transparency and provide information about your work and use of Outdoor Heritage Fund dollars.
12. Why will this strategy work?

Program Title:

13. Who might make decisions that assist or work against achieving the expected impact program?

14. If this is acquisition of land, has the local government formally approved the acquisition?

\_\_\_\_\_ YES \_\_\_\_\_ NO

15. If this is fee simple acquisition of land, is the land free of any other permanent protection such as a conservation easement?

\_\_\_\_\_ YES \_\_\_\_\_ NO

16. If this is an easement acquisition, will the eased land be open for public use?

\_\_\_\_\_ YES \_\_\_\_\_ NO  
If so what kind of use?

17. If easement acquisition, will the easement be a permanent conservation easement as described in MS 2009, Chapter 84C.01, specifically protecting the natural resource values of real property forever?

\_\_\_\_\_ YES \_\_\_\_\_ NO

18. If you are proposing funding for a new or ongoing program how long into the future do you expect this program to operate?

\_\_\_\_\_ Years

19. Which planning sections will you work in? Check all that apply in the list below.

- \_\_\_\_\_ Northern Forest
- \_\_\_\_\_ Forest/Prairie Transition
- \_\_\_\_\_ Southeast Forest
- \_\_\_\_\_ Prairie

L-SOHC Request for Funding Form

Program Title:

\_\_\_\_\_ Metropolitan Urbanizing Area

**20. Does the request address an urgent conservation opportunity that will be lost if not immediately funded?**

\_\_\_\_\_ YES \_\_\_\_\_ NO  
If yes, please explain.

**21. Does the request restore and/or enhance habitat on existing state-owned Wildlife or Aquatic Management Areas or Scientific and Natural Areas?**

\_\_\_\_\_ YES \_\_\_\_\_ NO  
If Yes, list the names of the AMAs, WMAs and/or SNAs and the acres to be restored and/or enhanced.

**22. Is this request based on assessment through a science based strategic planning and evaluation model similar to the United States Fish and Wildlife Service's Strategic Habitat Conservation model?**

\_\_\_\_\_ YES \_\_\_\_\_ NO  
If yes explain the model briefly.

**23. Explain the scientific foundation for your project, and the benefits it will produce.**

**24. How do you set priorities? (Be sure to list the criteria you use and the weight you give each one.)**

**C. Relationship to the *Minnesota Conservation and Preservation Plan* and Other Published Resource Management Plans** *What published resource management plan features this action as a priority for Minnesota. Please state the priority, the name of the plan(s).*

**Program Title:**

**D. Budget** *Please, in the table below, describe how you intend to spend the requested funds.*

<b>Budget Item</b>	<b>Fiscal Year 11</b>	<b>Fiscal Year 12</b>	<b>Fiscal Year 13</b>
<b>Personnel</b>			
<b>Contracts</b>			
<b>Equipment/Tools/Supplies</b>			
<b>Fee Acquisition</b>			
<b>Easement Acquisition</b>			
<b>Easement Stewardship</b>			
<b>Professional Services</b>			
<b>Travel</b>			
<b>Additional Budget Items</b>			
<b>TOTAL</b>			

**E. Personnel Details** *In the space below list the names, titles and anticipated program funds to be paid by this recommendation. If you will need to fill a position just list the title and amount.*

<b>Title</b>	<b>Name</b>	<b>Amount.</b>

<b>Enhance</b>	<i>\$5,000</i>	<i>\$1,000</i>		

Program Title:

Table 4 Leverage \$				Habitats for Fish, Game and Wildlife
	Wetlands	Prairies	Forests	
Restore	\$10,000	\$0		\$0
Protect		\$50,000	\$10,000	\$25,000
Enhance	\$0	\$0		

Table 5 Acquisition Data				Habitats for Fish, Game and Wildlife
	Wetlands	Prairies	Forests	
Acquired in Fee with State PILT Liability				5 miles of shoreline with acquisition value of \$1,000,000
Acquired in Fee without State PILT Liability		100 acres for \$500,000		
Permanent Easement			10 acres for \$1,000	

**H. Accomplishment Time Table** Using the headings below, include a clear statement of how much of what is being accomplished and when. Attach a map showing where accomplishments are anticipated. Accomplishments should clearly restore, enhance or protect forests, wetlands, prairies and habitat for fish, game and wildlife.

Measure	Milestone	Date	
Example: Identify prairie for restoration acres		February 1, 2010	2000
Example: Complete initial prairie restoration acres		October 30, 2010	1000
Example: Complete second prairie restoration acres		October 30, 2011	1000

**I. Relationship to Your Current Budget**

Use this section to put the OHF request into financial context. What percent of your current fiscal year base budget is this request? Provide the current fiscal year base budget and the percent this request from the OHF represents.

You need to show how this funding will supplement your current base budget and not replace your customary or established patterns of funding.

**L-SOHC Request for Funding Form**

**Program Title:**

*If you currently have any unspent/unprogrammed state dollars? List the source and the amount.*

**J. How Will the Habitat Improvements Be Sustained?**

*Your use of Outdoor Heritage Funds needs to create lasting habitat improvement. Please describe how you plan to ensure lasting improvement and how you will finance that plan.*

*If you are proposing easement acquisition explain how you will pay for perpetual easement stewardship.*

*If you are proposing acquisition explain how you will pay long-term costs such as property taxes or related payments.*

**K. Attach a list of your projects listing their county location and edit the map of Minnesota on the next page to show each project as a symbol.**

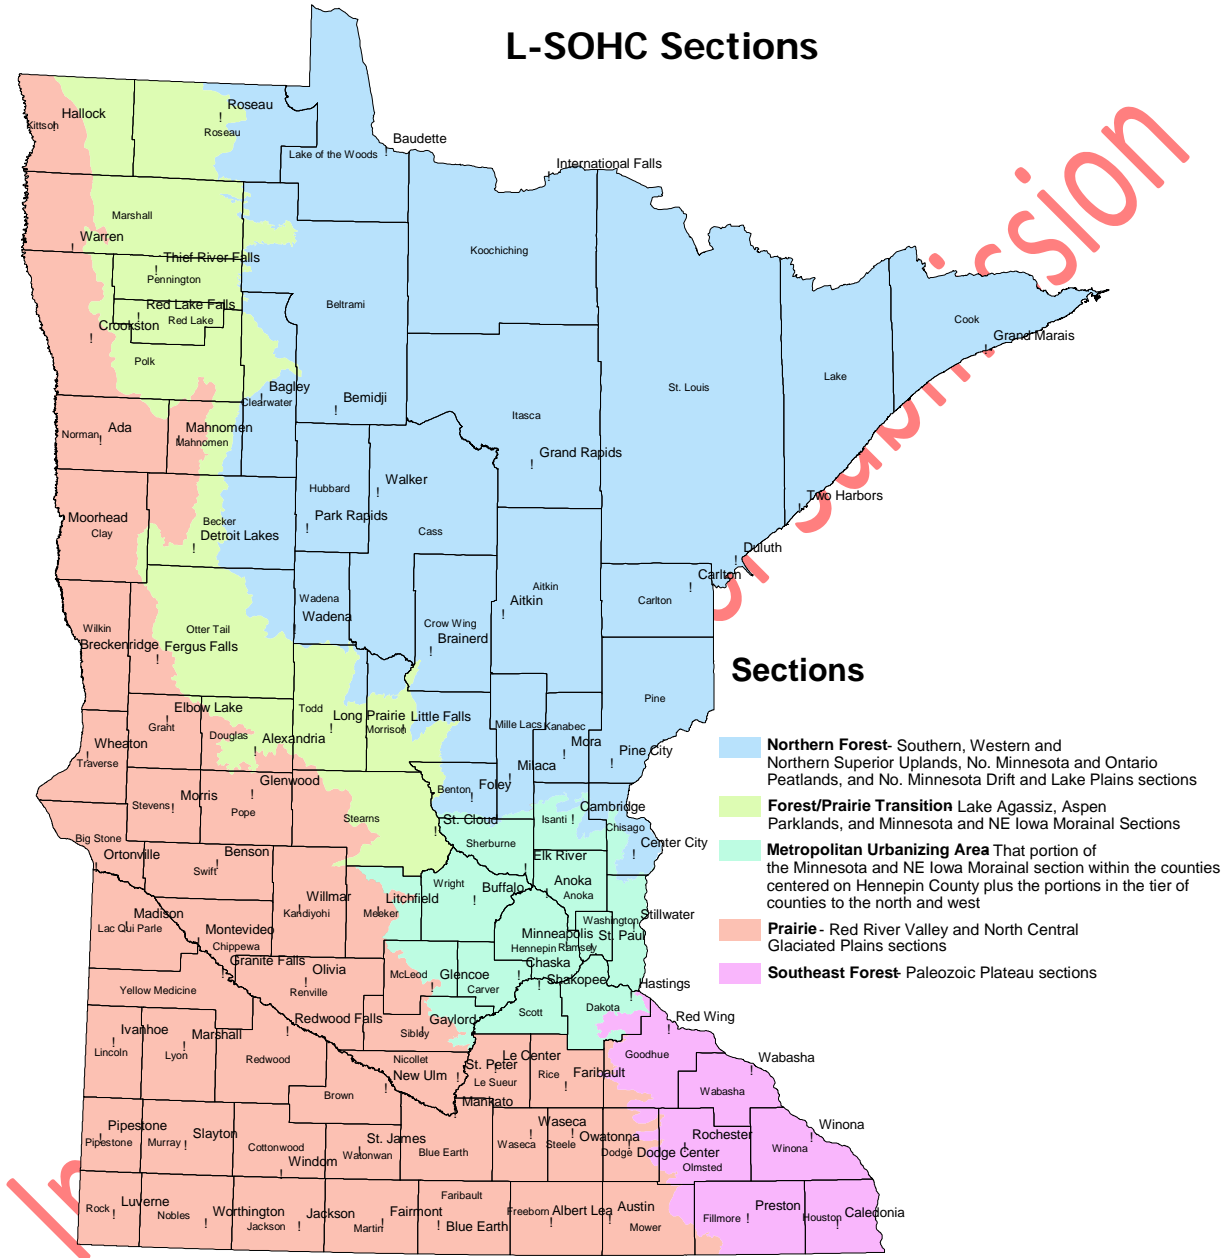

Double left click to bring up the map editor. Symbols should be on the left side of the pop-up banner at the top of your screen or at the bottom left depending on your software

If you can't bring up the interactive map editor follow these instructions:

1. Make a paper copy of the map,
2. By hand place symbols on the map corresponding to the location of the projects in your proposal,
3. Scan the marked map to a pdf, and
4. Insert the marked pdf map as the last page in your submission.

Instructions, Not For Submission
