

# Lessard-Sams Outdoor Heritage Council

## Laws of Minnesota 2011 Final Report

**Date:** November 07, 2016

**Program or Project Title:** Accelerating the Wildlife Management Area Program, Phase 3

**Funds Recommended:** \$5,500,000

**Manager's Name:** Eran Sandquist

**Title:** State Coordinator - MN

**Organization:** Pheasants Forever

**Address:** 410 Lincoln Ave S

**Address 2:** Box 91

**City:** South Haven, MN 55382

**Office Number:** 320-236-7755

**Mobile Number:** 763-242-1273

**Email:** esandquist@pheasantsforever.org

**Legislative Citation:** ML 2011, First Sp. Session, Ch. 6, Art. 1, Sec. 2, Subd. 2(g)

**Appropriation Language:** \$5,500,000 the first year is to the commissioner of natural resources for an agreement with Pheasants Forever to acquire prairie and other habitat areas for wildlife management area purposes under Minnesota Statutes, section 86A.05, subdivision 8. A list of proposed land acquisitions must be provided as part of the required accomplishment plan.

**County Locations:** Brown, Chippewa, Lac qui Parle, Lincoln, McLeod, Meeker, Morrison, and Redwood.

**Regions in which work was completed:**

- Northern Forest
- Prairie
- Metro / Urban

**Activity types:**

- Protect in Fee

**Priority resources addressed by activity:**

- Wetlands
- Prairie

### Summary of Accomplishments:

The proposal was to accelerate the protection of 1,275 acres of prairie grassland, wetland, and other wildlife habitat as State Wildlife Management Areas open to public hunting. However, over the course of the appropriation, we acquired 10 parcels for a total of 1,498 acres which exceeded our total acre goal of 1,275 acres by 223 acres. Breaking down acres by ecological section we exceed our acre goal for the metropolitan area by 97 acres. We have a balance of \$60,000 that will be returned to the Fund despite exceeding our acre goals and demonstrating the high level of efficiency Pheasants Forever operates at.

In total, we under spent on our budget, over delivered on acre goals, and over delivered on match leverage received.

### Process & Methods:

Working in close collaboration with partners, Pheasants Forever acquired 1,498 acres of strategic habitat that builds onto existing protected lands and/or develops corridors for wildlife. All land acquired has been enrolled into the state Wildlife Management Area (WMA) Program and will be protected and managed in perpetuity by the Minnesota Department of Natural Resources. We have worked

together with federal, state and local partners when acquiring the 10 parcels which will now be celebrated as new WMAs. These new WMAs not only provides access and recreational opportunities for all Minnesotans, but helps reduce erosion, improve water filtration, and provide quality habitat for many of Minnesota's non-game species.

The offers to the landowner were based on fair market values and appraisals. The acquired parcels addressed a backlog of willing sellers that now are helping slow the loss, degradation, and fragmentation of habitat in Minnesota. Parcels were identified jointly with the MN DNR, ranked, and prioritized on habitat goals and feasibility. Pheasants Forever's methods are formed around the principle of accelerating the Wildlife Production Area program in MN by targeting only the best available habitat with willing sellers. We utilize local partner expertise to focus on building a system of interconnected wildlife complexes that create habitat mosaics. We also utilize the latest geospatial layers to help determine factors such as: habitat restoration potential, landscape scale significance, presence of rare features and native habitat, and how these acquisitions fit into other priorities for our partners such as the MN prairie Conservation Plan, the Pheasant Action Plan, or the State Wildlife Action Plan.

All parcels acquired have been restored and/or enhanced to as a high quality as practicable. All agricultural row crops on these parcels have been restored to native grassland/wetland complexes. The grasslands were restored using a broadcast or drill seeded method with a diverse mix of native grasses and forb species. Wetlands were restored using a combination of tile breaking, sediment removal, dike construction, and water control structures. Scattered invasive tree removal and prescribed fire were used where appropriate to enhance existing grassland habitat after protection.

### **Explain Partners, Supporters, & Opposition:**

We worked in close collaboration with MN DNR to find and evaluate the best properties to peruse based on the criteria listed in the process and methods section. During the process, we also worked with many other partners to gauge interest levels and determine if the property is suitable for a Wildlife Management Area.

### **Additional Comments:**

#### *Exceptional challenges, expectations, failures, opportunities, or unique aspects of program*

There were no exceptional failures or challenges that were encountered. This is due in part to our high level of collaboration and efficiency. We also strive to be respectful and accommodating in helping to facilitate landowners wishes when working with willing sellers as many see this as leaving their own habitat legacy.

### **Other Funds Received:**

- Environmental and Natural Resource Trust Fund

#### **How were the funds used to advanced the program:**

This proposal stands alone and has no direct ties to other constitutional funds. Pheasants Forever has a long history and proven track record of public land acquisition within the state through RIM, NAWCA, and partnership with MN DNR. This request for Outdoor Heritage funds is part of an overall initiative to increase and accelerate the acquisition, protection, and restoration of public lands that provide quality wildlife habitat that are open to the public for recreation. The intent of this proposal is to build upon past investments of both public and private land, thus would indirectly tie in to past funding sources from ENRTF, RIM Funding, other WMA acquisition funds. Non-state partner funds (local PF chapter funds, other non-state partner funds, documented donations of land value, and federal funds such as NAWCA) will be used to match OHF grant monies.

### **What is the plan to sustain and/or maintain this work after the Outdoor Heritage Funds are expended:**

All parcels acquired have been transferred to the MN DNR for enrollment into the Wildlife Management Area program. All parcels were acquired then restored as part of this effort. The long-term management & maintenance of these new WMAs will be the responsibility of the MN DNR. Pheasants Forever is also active in additional habitat enhancement and restoration activities on existing public lands where there is a need.

### **Outcomes:**

#### *The original accomplishment plan stated the program would*

#### **Programs in the northern forest region:**

## Explain any budget challenges or successes:

Pheasants Forever (PF) and our partners are happy to bring in over \$711,000 of non-state match dollars to this effort. This represents over \$77,000 additional (beyond our \$607,000 goal) dollars brought to bear on the projects of this appropriation. No challenges were encountered and PF achieved and exceeded all outlined goals within the budget.

**Target Lake/Stream/River Feet or Miles (original)**

0

**Target Lake/Stream/River Feet or Miles (final)**

0

**Explain the success/shortage of acre goals:**

We acquired 10 parcels for a total of 1,498 acres which exceeded our total acre goal of 1,275 acres by 223 acres. Breaking down acres by ecological section we exceed our acre goal for the metropolitan area by 97 acres. In the prairie region we were short by 76 acres. This was because we acquired a strategic 202-acre addition to the Ereaux WMA in the northern forest region just on the border from the forest/prairie transition in Morrison County.

# Parcel List
