

Members of the Lessard-Sams Outdoor Heritage Council G-95 State Office Building 100 Rev. Dr. Martin Luther King, Jr. Blvd St. Paul. MN 55155

The Leech Lake Fishing Task Force is concerned about stopping the spread of Aquatic Invasive Species (AIS) and a number of efforts are underway statewide. However, AIS decontamination units are not readily available statewide for recreationalists to practice "personal responsibility" and decontaminate high risk watercraft to reduce the threat of transferring AIS when moving between waterbodies.

We support the MN COLA grant request proposal for Statewide AIS Equipment and Facilities which would provide one-time capital grants for local governments.

We believe this proposal would accelerate the local government efforts to stop the spread of AIS, and we encourage your support.

Zebra mussels have already infested many of our most important lakes in Minnesota, but many thousands more are still unaffected. These infestations permanently affect the fish habitat which is central to your mission. Please fund this proposal and help prevent further ecological damage to our public waters.

Lany a Canderson Chairman of the Leech Lake Fishing Task Force

Larry Anderson

29 August 2013

Mr. George Fenwick President American Bird Conservancy P.O. Box 249 The Plains, VA 20198-2237

Mr. Fenwick:

Dr. Jeffery Larkin provided me with a copy of your Lessard-Sams Outdoor Heritage Council (LSOHC).proposal and asked that I provide a letter summarizing how that proposal relates to the research that my students and I have engaged in regarding golden-winged warblers, other forest birds, and American woodcock in Minnesota and the western Great Lakes region. As summarized in your proposal, Minnesota harbors significant portions of the global golden-winged warbler population. In addition, Minnesota supports a host of forest bird species, including a significant portion of the U.S. American woodcock population. As such, Minnesota has an important stewardship responsibility for these and other forest birds, and providing suitable habitat for these species will help encourage their continued presence in Minnesota forests.

Our work with golden-winged warblers, other forest songbirds, American woodcock, and forestnesting raptors over the past 2 decades has provided considerable information about bird-habitat relations in Minnesota and other forested portions of the western Great Lakes region. An interesting thread through much of our forest bird work has been that many forest birds rely on a variety of land-cover types throughout the breeding season. For example, ovenbirds, which were thought to use primarily mature forest during the breeding season, also use early successional cover types and areas with shrubby vegetation once young leave nests. Conversely, goldenwinged warblers, birds thought to rely heavily on early successional forest, both nest in relatively mature forest, and use those forests to raise their young. Northern goshawks and red-shouldered hawks both nest in relatively older forest, but also rely on prey associated with younger forests or edges between cover types. Overall, and perhaps not surprisingly, it appears that a mix of forest cover types are used by many forest birds, and landscapes that provide a mix of cover types are important from a management perspective to Minnesota's wildlife.

Focus on golden-winged warbler habitat in Minnesota likely benefits a variety of forest bird species, and some of the results of our research can help guide habitat management for this

species and other birds that share their habitats. Should your LSOHC proposal be funded, we look forward to working with you to help maximize the positive impact of your activities on golden-winged warblers.

Sincerely,

N & Anderse

David E. Andersen Leader, MN Cooperative Fish and Wildlife Research Unit 612 626-1222 dea@umn.edu

EGEOVE Council July 30-13 AUG 2 6 2013 Legislators I people were paying attention they would know What we have a whate good de boys club in Munnesote spending hundreds of millions of tox poyers dollars. Its called the Out door Heritage find councel. Sportsmen complain that the legislators and especially a couple of women legislators are questioning how the council wonto to spend the Tox poyers money. I have news for the connect, There women legislators were elected. The fund council is appointed - making by more old white men ? Does anyon know that women and people of all colors pay toxas in Munnesota. If the council represented Minn as I are it these viccous attacks on these comon legislators would stop. How on I ads earth in this day and age can this hoppen. White men only need apply. Who do you represent, white good de boys? Commy Stiles Tommy Stiles C.C. aug 12 - 13 Convil Dauton Senster Ingebugten thanks for calling me. I enjoyed the conservation. When I wrote the letter of which you got a copy, I had mono idea of the Heritage fund council was racist. I only said it was a white good ale boys club the I didn't look flike Mennesotor. But our visit confirmed that you are a rocust, By your own words you have ill will toward Native amounons, That is rocism you are not alone, many sportsmen feel us you do But athers are not on the council that hosts pass judgement on Native american projects, you are . all to that the way you treated & enotor Cohen in The legislature, you acted like no more this a school gard bully, and when I questioned you at the time about it you seemed pleased with yourself. a bully. you don't belong on the council, at the very least you should excause you sulf when Addine american essens come befor you. Manup. the next question is are there others on The council that feel as you do about Natin Americans or alburs? you and many others just don't seem to be able to accept Native american Treaty rights . always remember we state This land. Council Setter to the Editor - Outdoor News In reading Dovernon Daytom littles its obvious that The feels strongly along with many others That the Oat doos Heritage Fund money should only be spent on projects approved by the Jessard - Dame Louncil. I don't agree with that position but I can under stand the But with that in mind then every effect for the Council to represent all of Munnerota should be made I done Outdoor News to print a picture of the Council and pretend that they represent all of Mennesota, Commy Stiles Tommy Stiles 288 30' 2180th Ave Henning Minnerota 56551-9214 218-5832752
