

## Unresolved Issues/Subjects

Below are issues/subjects that have been addressed but unresolved due to lack of consensus, lack of sufficient time to fully develop, or limitations in required programming (especially where budget alternations are involved). Councilors may use as follow-up questions.

1. Describe and quantify willingness and likelihood of landowner to sell; i.e., acquisition potential for each parcel.
2. Break out both Contracts and Professional Services into 2 sub-categories: Restoration/Enhancement contracts, and Acquisition work contracts (including appraisals).
3. Break out Travel into 2 sub-categories: Traditional Travel Costs, and Equipment costs.
4. Describe how proposal adds to existing contiguous protected tracts, and/or provides corridor link or other unique value.
5. Compare & score proposals within each Ecological Section only.
6. Strengthen the effect of Councilor comments.
7. Prioritize WMA's.
8. Recommend CPL funding at outset each year.
