

September 20, 2013 Motions to Allocate Funds to Recommendations for Requests

2:47:59 Action: Allocation to Requests for Recommendation to 2014 Legislature

Chair Hartwell described his proposal for beginning the discussion on allocation recommendations. He offered that all projects that received eight or more funding recommendations be included in the chair's proposal. However, the average of those funding recommendations was \$95,180,000, leaving a relatively small balance for members to advocate for increasing any proposal's funding recommended in the chair's proposal or adding to the chair's proposal. The chair stated that this formula did not allow for debate on a proposal's merits or deficiencies.

In order to encourage debate and a more thorough vetting of the recommendations as a whole, the chair's proposal would include those proposals receiving eight or more members' recommendations and use 75% of the average recommendation for each proposal as a starting point for discussion. The chair's proposal, then would begin with \$70,430,000 and allow for \$31,520,000 for members to allocate by individual motion and debate. Rep. Hansen moved the chair's proposal.

02:54:12 Scott Rall spoke against the chair's proposal. He said that because 93.4% of the available funds were allocated to the requests funded by eight or more members there was great member consensus. He proposed that the council distribute the recommended funds to those with eight or more members allocating and distribute the remaining \$6 million by member motions.

03:56:03 Chair Hartwell suggested modifying his motion to forward requests receiving nine or more members allocating funds to the request at 90% of the average member allocation. Rep. Hansen withdrew his motion on the original chair's proposal.

03:59:35 Scott Rall moved the revised chair's proposal. All requests with nine or more members allocating money would be included at 90% of the adjusted average member allocation.

04:05:00 discussion of procedures: The revised Chair's Proposal left \$23,218,000 to be recommended. Members agreed that for the initial allocation to recommended amounts each member would have the opportunity to make a motion using \$2,100,000. The motions would be taken in order determined by lot. After a round of motions the members could continue making motions until all members had made all desired motions. With the Chair's Proposal as the motion before the Council members made the following amendments to the motion of the Chair's Proposal.

4:08:15 Scott Rall moved on behalf of Jim Cox to add \$600,000 to PA-4, Northern Tallgrass Prairie National Wildlife Refuge (The Nature Conservancy) and \$1,500,000 to WRE-2, Living Shallow Lakes and Wetlands Initiative Phase IV (Ducks Unlimited) - motion passed
