### Abstract:

This program annually evaluates a sample of up to twenty-five Outdoor Heritage Fund habitat restoration and enhancement projects, provides a report on the evaluations in accordance with state law and delivers communications on project outcomes and lessons learned in restoration practice.

### Design and scope of work:

The Department of Natural Resources (DNR) and the Board of Water and Soil Resources (BWSR) are jointly responsible for convening a Restoration Evaluation Panel (Panel) of technical experts to annually evaluate a sample of habitat restoration projects completed with Outdoor Heritage funding, as provided in M.S. 97A.056, Subd. 10. Primary goals of the restoration evaluations program are to provide on the ground accountability for the use of Legacy funds and to improve future habitat restorations in the State. Per statute, the Panel will evaluate the selected habitat restoration projects relative to the law, current science, and the stated goals and standards in the restoration plan. The program coordinator will identify projects to be evaluated, coordinate field assessments and provide a report to the Lessard-Sams Outdoor Heritage Council (LSOHC) and the legislature determining if the restorations are meeting planned goals, any problems with the implementation of restorations, and, if necessary, recommendations on improving restorations.

Restoration evaluation reports are available: <http://www.leg.state.mn.us/edocs/edocs.aspx?oclcnumber=823766285>

The anticipated long-term outcomes of this program are the increased success of habitat restorations and an increased awareness among practitioners and decision-makers of common challenges associated with habitat restorations and recommended management options to improve future restorations. Outputs from this program for Fiscal Year 2017 include case studies of specific practices, project outcomes and lessons learned in the field from restoration practice.

This request supports a portion of the inter-agency Legacy Fund Restoration Evaluations Program, which provides for the evaluation of habitat restoration projects completed with funds from the Parks and Trails Fund (M.S. 85.53 Subd. 5), Outdoor Heritage Fund (M.S.97A.056 Subd.10), and Clean Water Fund (M.S. 114D.50 Subd. 6) as required by state law. Up to twenty initial Outdoor Heritage Fund project evaluations will be reported on in the Fiscal Year 2018 report, an additional three to five follow up evaluations of previously assessed sites will also be reported. Follow up assessments will provide valuable insight in tracking progress and estimating trajectory towards planned goals.

**How does the request address MN habitats that have: historical value to fish and wildlife, wildlife species of greatest conservation need, MN County Biological Survey data, and/or rare, threatened and endangered species inventories:**

This program supports the habitat work of all evaluated projects through the assessment of implementation and progress towards planned goals.

**Describe the science based planning and evaluation model used:**

**Which sections of the Minnesota Statewide Conservation and Preservation Plan are applicable to this program:**

- Not Listed

**Which other plans are addressed in this program:**

**Relationship to other funds:**

- Clean Water Fund
- Parks and Trails Fund

**Describe the relationship of the funds:**

The Restoration Evaluation Program for Legacy Projects concurrently fulfills requirements to conduct restoration evaluations (M.L. 2013, Ch. 137) for projects completed with funds from the Clean Water Fund (M.S. 114D.50) and Parks and Trails Fund (M.S. 85.53).

**How does this program include leverage in funds or other effort to supplement any OHF appropriation:**

The restoration evaluation program formalizes and promotes the process of assessing restoration project performance. Site assessment teams will use project appropriate assessment measures to establish that current science based practices are being applied on the ground in selected Outdoor Heritage Fund restoration projects. This level of assessment goes beyond standard reporting requirements and exceeds operational capacity of most programs. This program also increases the communication of specific project outcomes and lessons learned from restoration implementation. Reports will focus on improving future restorations by providing feedback to practitioners regarding challenging situations and viable solutions. Creation of this continuous learning environment provides an important tool for improving restoration practice throughout the state.

**Per MS 97A.056, Subd. 24, Any state agency or organization requesting a direct appropriation from the OHF must inform the LSOHC at the time of the request for funding is made, whether the request is supplanting or is a substitution for any previous funding that was not from a legacy fund and was used for the same purpose:**

This request provides funding to a dedicated Legacy Fund program. It does not supplant or substitute for any previous funding.

## Describe the source and amount of non-OHF money spent for this work in the past:

Not Listed

## How will you sustain and/or maintain this work after the Outdoor Heritage Funds are expended:

It is anticipated that the evaluation program outputs will help to create a framework for continuous improvement in restoration practice. Direct work of the Legacy Fund Restoration Evaluation Program will be sustained for the period of funding.

## Explain the things you will do in the future to maintain project outcomes:

Not Listed

## Activity Details:

If funded, this program will meet all applicable criteria set forth in MS 97A.056 - **Yes**

Will there be planting of corn or any crop on OHF land purchased or restored in this program - **No**

## Accomplishment Timeline:

Activity	Approximate Date Completed
Evaluation Panel establishes annual priorities	July 1, 2018
Program Coordinator selects up to twenty-five project sites for evaluation	July 1, 2018
Site assessors (State staff and contractors) conduct field surveys of selected sites	July 30, 2019
