Narrative

Abstract

Provide contract management and customer service to OHF pass-through appropriation recipients for approximately 160 open grants. Ensure funds are expended in compliance with appropriation law, state statute, grants policies, and approved accomplishment plans.

Design and Scope of Work

This appropriation will be used to continue and enhance contract management services to pass-through recipients of Outdoor Heritage Fund appropriations to the Commissioner of Natural Resources. The goal of contract management is to ensure that grantees are properly reimbursed and that organizations operate in compliance with OHF pass-through appropriation procedures, policies from the Department of Administration's Grants Management, OHF statute, and the recommendations of the Legislative Auditor. Contract management includes: grant agreements and amendments, training, technical assistance, reporting, fiscal monitoring, reimbursement request processing, and close-out of grants.

The DNR is currently the administrative agent for this program. The DNR's Office of Management and Budget (OMBS) Grants Unit is applying to continue to provide contract management services to pass-through grant recipients. The OMBS Grants Unit's goal is to provide pass-through recipients with the contract management, technical assistance, and grant monitoring they need to successfully complete their conservation work. The Grants Unit provides grantees with one consistent point of contact for their agreements and delivers timely, responsive, customer service.

Contract management services are billed using a professional services rate. In FY21, 3.53 FTE will be dedicated to contract management. The professional services hourly rate includes salary and fringe for grants management staff, supervisory time, travel costs, supplies, and allocated administrative costs including rent and printing as well as other related costs necessary to carry out the pass-through grant management program. Multiple staff with a variety of grants, financial or other responsibilities provide contract management services to OHF as well as the Environment and Natural Resources Trust Fund (ENRTF). The Grants Unit consults with Lands and Minerals and Fish and Wildlife staff as necessary on technical issues. Cost coding is used to record and differentiate time spent on ENRTF and OHF pass-through grant management. Services not received or provided will not be billed. The rate for FY20 is \$66.00/hr and is re-calculated annually. If the rate changes, LSOHC staff will be informed immediately.

How does the plan address habitats that have significant value for wildlife species of greatest conservation need, and/or threatened or endangered species, and list targeted species?

N/A

Describe how the plan uses science-based targeting that leverages or expands corridors and complexes, reduces fragmentation or protects areas identified in the MN County Biological Survey:

N/A

Which two sections of the Minnesota Statewide Conservation and Preservation Plan are most applicable to this project?

Which two other plans are addressed in this program?

Which LSOHC section priorities are addressed in this program?

Does this program include leveraged funding?

No

Per MS 97A.056, Subd. 24, Please explain whether the request is supplanting or is a substitution for any previous funding that was not from a legacy fund and was used for the same purpose.

This request is for work related to Outdoor Heritage Fund appropriations. It would not be implemented but for the appropriation. No outside funding has been used for this purpose.

How will you sustain and/or maintain this work after the Outdoor Heritage Funds are expended?

N/A

Activity Details

Requirements

If funded, this program will meet all applicable criteria set forth in MS 97A.056?

Yes

Land Use

Will there be planting of any crop on OHF land purchased or restored in this program?

No
