Narrative

Abstract

This proposal supports the work of the Restoration Evaluation Program (REP). The REP carries out the statutory charge to annually evaluate a subset of Outdoor Heritage Fund supported projects with the goal of improving future restorations and enhancements. The REP coordinates the evaluation work, presents the evaluation results to a technical panel of experts, and collates resulting recommendations. The REP produces a related report and

offers various targeted outreach to practitioners highlighting successes, failures, lessons learned, and recommendations for improving restoration practice.

Design and Scope of Work

The Department of Natural Resources (DNR) and the Board of Water and Soil Resources (BWSR) are jointly responsible for convening a Restoration Evaluation Panel (Panel) of technical experts to annually evaluate a sample of habitat restoration and enhancement projects completed with Outdoor Heritage funding, as provided in M.S. 97A.056, Subd. 10. Primary goals of the restoration evaluation program are to provide on the ground accountability for the use of Legacy funds and to improve future habitat restorations in the State. Per statute, the Panel will evaluate the selected habitat restoration projects relative to the law, current science, and the stated goals in the restoration plan. Program staff will identify projects to be evaluated, coordinate field assessments and provide a report to the Lessard-Sams Outdoor Heritage Council (LSOHC) and the legislature determining if the restorations are meeting planned goals, any problems with implementation, and, if necessary, recommendations on improving restorations.

The anticipated long-term outcome of this program is to promote and increase impactful, long-lasting habitat restoration projects. This is accomplished by advancing awareness among practitioners and decision-makers of common challenges and recommended management options to improve future restoration projects. The primary mechanism for advancing awareness is through program staff coordinating various communications including the annual report, website, webinars, field trainings, conference seminars and workshops and integration in technical guidance (e.g. <https://bwsr.state.mn.us/native-vegetation-guidelines>). Program staff are working with the Panel, LSOHC, and project managers to explore novel approaches to advance the intent of M.S. 97A.056, Subd. 10. Updates on continued coordination with Council members and Council staff are anticipated in 2026.

Funding for this proposal will:

- Complete up to twenty initial Outdoor Heritage Fund project evaluations and three follow up evaluations of previously assessed sites. Follow up assessments provide valuable insight into tracking progress and estimating trajectory towards planned goals. Site evaluations will be conducted by a state staff and contacted assessors. Contracted assessors add value by providing deep knowledge of practice implementation and avoiding conflict of interest.
- Coordinate review by the technical evaluation panel, synthesize and organize their findings and recommendations and report the results in 2026 Legacy Restoration Evaluation report.
- Continue creating, disseminating and promoting targeted guidance for improving restoration and enhancement practices based on panel recommendations.

During 2025 the evaluation program is focused on stream restoration projects, with outcomes reported to the Council in early 2026. Continued discussion with the Panel and Council members will guide areas of focus in 2026.

The most recent Restoration Evaluation report, appendix of project evaluations and an overview of ongoing recommendations for improving practices are available on the MN DNR website <https://www.dnr.state.mn.us/legacy/restoration-evaluation.html>.

A permanent record of all Legacy Fund Restoration Evaluation reports beginning in 2012 are available from the Legislative Library: <http://www.leg.state.mn.us/edocs/edocs.aspx?oclcnumber=823766285>.

Explain how the proposal addresses habitat protection, restoration, and/or enhancement for fish, game & wildlife, including threatened or endangered species conservation

What are the elements of this proposal that are critical from a timing perspective?

Describe how the proposal expands habitat corridors or complexes and/or addresses habitat fragmentation:

Which top 2 Conservation Plans referenced in MS97A.056, subd. 3a are most applicable to this project?

Explain how this proposal will uniquely address habitat resilience to climate change and its anticipated effects on game, fish & wildlife species utilizing the protected or restored/enhanced habitat this proposal targets.

Which LSOHC section priorities are addressed in this proposal?

Describe how this project/program will produce and demonstrate a significant and permanent conservation legacy and/or outcomes for fish, game, and wildlife, and if not permanent outcomes, why it is important to undertake at this time:

Outcomes

What other dedicated funds may collaborate with or contribute to this proposal?

Clean Water Fund

Parks and Trails Fund

Per MS 97A.056, Subd. 24, Please explain whether the request is supplanting or is a substitution for any previous funding that was not from a legacy fund and was used for the same purpose.

This program is entirely dedicated to Legacy Fund work and does not supplant or substitute for previous funding.

How will you sustain and/or maintain this work after the Outdoor Heritage Funds are expended?

It is anticipated that the evaluation program outputs will help to create a framework for continuous improvement in restoration practice. Direct work of the Legacy Fund Restoration Evaluation Program will be sustained for the period of funding.

Provide an assessment of how your program may celebrate cultural diversity or reach diverse communities in Minnesota, including reaching low- and moderate-income households:

Activity Details

Requirements

Land Use

Will there be planting of any crop on OHF land purchased or restored in this program, either by the proposer or the end owner of the property, outside of the initial restoration of the land?

No

Will insecticides or fungicides (including neonicotinoid and fungicide treated seed) be used within any activities of this proposal either in the process of restoration or use as food plots?

No

Other OHF Appropriation Awards

Have you received OHF dollars through LSOHC in the past?

Yes

Are any of these past appropriations still OPEN?

Yes

Approp Year	Funding Amount Received	Amount Spent to Date	Funding Remaining	% Spent to Date
2024	\$160,000	\$7,000	\$153,000	4.38%
2023	\$190,000	\$190,000	-	100.0%
2022	\$200,000	\$200,000	-	100.0%
2021	\$150,000	\$150,000	-	100.0%
2020	\$150,000	\$150,000	-	100.0%
2019	\$150,000	\$150,000	-	100.0%
2018	\$150,000	\$150,000	-	100.0%
2017	\$150,000	\$150,000	-	100.0%
2016	\$125,000	\$125,000	-	100.0%
2015	\$100,000	\$100,000	-	100.0%
2014	\$100,000	\$100,000	-	100.0%
2013	\$45,000	\$45,000	-	100.0%
2012	\$45,000	\$45,000	-	100.0%
2011	\$42,000	\$42,000	-	100.0%
Totals	\$1,757,000	\$1,604,000	\$153,000	91.29%

Timeline

Activity Name	Estimated Completion Date
Evaluation Panel establishes annual priorities	July 1, 2026
Program staff select up to twenty-five project sites for evaluation	July 1, 2026
Site assessors (State staff and contractors) conduct field surveys of selected sites	October 1, 2026
2026 Restoration Evaluation report submitted to Legislature and LSOHC	April 28, 2027

Budget**Totals**

Item	Funding Request	Total Leverage	Leverage Source	Total

Site Assessors (State Agency Staff)	0.05	1.0	\$5,000	-	-	\$5,000
Program Coordinator	0.61	1.0	\$85,000	-	-	\$85,000
Evaluation Specialist	0.61	1.0	\$75,000	-	-	\$75,000

Amount of Request: \$204,000**Amount of Leverage:** -**Leverage as a percent of the Request:** 0.0%**DSS + Personnel:** \$182,000**As a % of the total request:** 89.22%**Easement Stewardship:** -**As a % of the Easement Acquisition:** -**Does this proposal have the ability to be scalable?**

No

Please explain why this project can NOT be scaled:

Personnel

Has funding for these positions been requested in the past?

Yes

Please explain the overlap of past and future staffing and position levels previously received and how that is coordinated over multiple years?

Program staff positions, Coordinator and Specialist, have have remained the same for the past seven appropriations.

Contracts

What is included in the contracts line?

Technical evaluation of completed restorations and enhancements.

Travel

Does the amount in the travel line include equipment/vehicle rental?

No

Explain the amount in the travel line outside of traditional travel costs of mileage, food, and lodging

I understand and agree that lodging, meals, and mileage must comply with the current MMB Commissioner Plan:

Yes

Direct Support Services

How did you determine which portions of the Direct Support Services of your shared support services is direct to this program?

DNR Direct and Necessary Calculator

Federal Funds

Do you anticipate federal funds as a match for this program?

No

Legacy Fund Restoration Evaluation Program Outdoor Heritage Fund ML26 Request

The Legacy Fund Restoration Evaluation Program provides a framework to evaluate and learn from Legacy Fund investments to restore habitat in Minnesota. Every year we work with project managers and visit restorations around the state. Highlights from the projects and lessons learned are communicated back to the restoration community to improve the quality of restorations in Minnesota. As directed by statute, we evaluate projects relative to current science and stated goals.

We convene a panel of restoration experts to review site evaluations, identify any problems with implementation, and form recommendations to improve future restorations. Recommendations include actions for Project Managers, State Agencies, Funding Organizations, and the restoration practitioner community at large.

Photo 1. Site visits are an important part of restoration evaluations. Gathering knowledge from project managers, inspecting site conditions, and surveying vegetation contribute to our understanding of restoration outcomes.

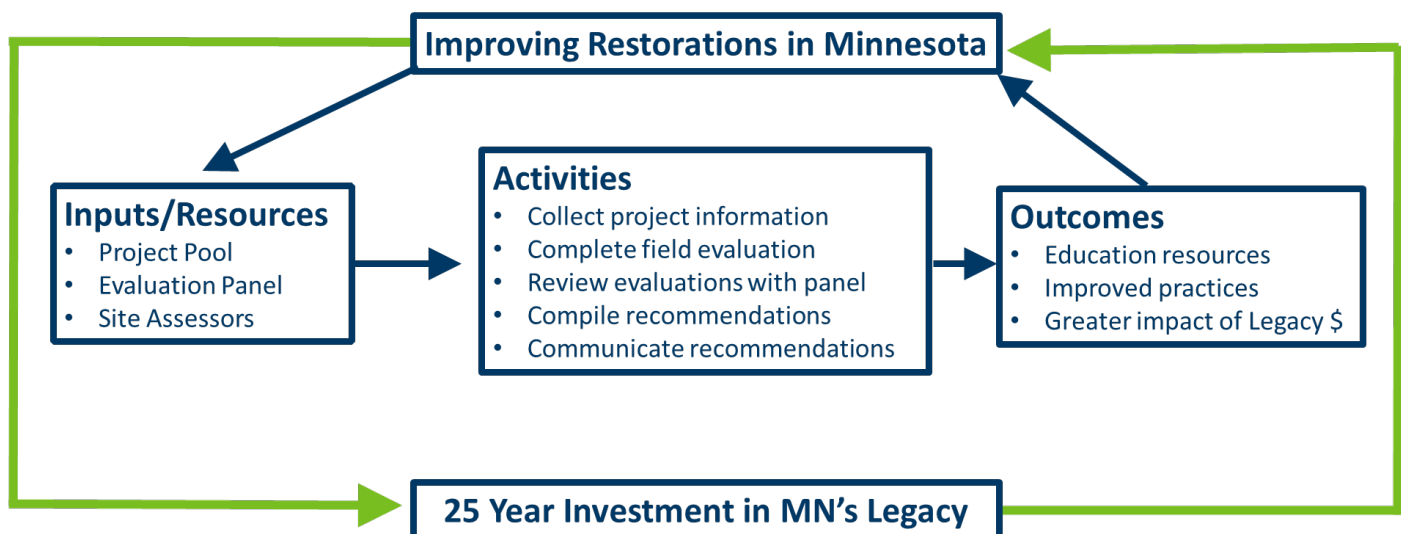

Figure 1 Restoration Evaluation Program Model.

ML 2026 Activities

In 2026, up to 20 OHF projects will be evaluated and 3 revisited for follow-up evaluations.

Considerations for OHF Project Selections:

- Geographic location and project managers - We evaluate projects in all regions of the state and prioritize unvisited counties and projects implemented by organizations we have not worked with before.
- Habitat type. Evaluations encompass the diverse habitats and activities funded by OHF.

- Evaluation theme/focus. Evaluating a suite of similar projects can yield deeper insights into specific restoration practices. For example, in 2022, several OHF buckthorn control projects were visited which resulted in a specific recommendation to improve this work: [Phased Approach for Buckthorn Management](#). In 2025 we are focusing on stream restorations.

What do we gain from evaluating restorations?

Tracking Success and Identifying Areas for Improvement

Of 301 projects evaluated to date:

- 77% on track to meet/exceed stated goals
- 84% utilized current science
- 74% were implemented without problems

These numbers are encouraging but there is still opportunity to do better for Minnesotans. Our evaluation process supports continuous improvement of Legacy funded restorations.

Recommendations to Improve Restorations

These range from general best practices that apply to all restorations:

- Improved Documentation, Multidisciplinary Project Teams, Restoration Training, technical review and guidance

To targeted for specific, often challenging projects:

- Planning and Vegetation for Stream Projects
- Implementation of Common Carp Barriers
- New 2024: Best Practices for Goat Browsing

Communicating with Stakeholders

Program communications support the recommendations of the Panel and highlight successful practices. These include:

- Collaborating with the University of Minnesota Extension and series of 16 “Improving Restorations” webinars: <https://extension.umn.edu/environmental-education/improving-restorations>
- “What’s Working in Minnesota” project highlights in the annual report. The 2024 report highlights strategic ongoing savanna and prairie restoration at Lake Elmo Park Reserve in Washington County. This project included targeted habitat guidance and measures for restoring habitat for the endangered Rusty patched bumble bee.
