Jacki:

Below is an email from Kris Larson of MN Land Trust with the other tour opportunity for Council members to consider attending. This is the one I mentioned that could be sent to members simultaneous with the BWSR tour invite.

Hi Mark;

Great to hear from you and great timing as we just nailed down some dates in August which were on my list to forward to you. Here's what we have:

August 21: 2:00--6:00
August 28: 2:00--6:00

They won't necessarily run until 6:00 (we can shorten/customize as needed). These are small boat tours which will see at least three of the project areas of LSOHC investment in the Estuary: Radio Tower Bay, Wild Rice and Chambers Grove.

Speaking of which, the other thing I was going to forward was the recent news articles (Saturday and today) in the Duluth News Tribune regarding the St. Louis River work. The St. Paul Pioneer Press also picked up the wild rice story. Please share with members as you see fit.

You mentioned previously that you may be orchestrating late summer or fall tours of the St. Louis estuary work. Is that still in the works and do you have any further details you could share with me?

I will be meeting with a Council member tomorrow morning to look at potentials for an outstate meeting and/or habitat tours.
