Re: Restoring the City of Champlin's Northern Gateway Phase II
City of Champlin, Minnesota

Dear LSOHC Board:

The City of Champlin would like to express our sincere appreciation to the LSOHC members for hearing the City's funding proposal for the *Mill Pond Deep Water Habitat and Fishery Restoration* (Phase II, Restoring Champlin's Northern Gateway). Also, we would like to thank the LSOHC Staff who were very helpful as we prepared to discuss this important improvement.

In addition, the City is grateful to the LSOHC for the impact you have had on so many important environmental projects. We also believe that restoring the Mill Pond will provide a regional benefit and a greater public good. We thank you for your consideration of our funding request.

Sincerely,

A handwritten signature in black ink, appearing to read "Bret Heitkamp", written over a circular scribble.
