Subject: Crow Wing County

Good Morning, Mr. Anderson:

Thank you for your service on the Lessard Sams Council.

I left a message at a legislative response e-mail address several weeks ago regarding Crow Wing County Board plan for the Potlatch Land Acquisition.

I see in yesterday's Brainerd Dispatch (8/15/2016) that the Lessard Sams Council is actively pursuing a remedy for what it thinks is a problematic use of public land.

As a resident of Crow Wing County for the past 9 years, I have been listed among the many Crow Wing County residents who have vigorously protested the heavy handed manner in which the Crow Wing County board of Commissioners have foisted ATV trails upon the various municipalities. It has not mattered what citizens desired. The Crow Wing County Board has not responded to citizen wishes but only promulgated its own.

I cringed at the announcement that Crow Wing County would manage the Potlatch Acquisition. I doubt that the DNR would have been a better conservator. I'm sure that you have gauged the DNR's stance of allowing Crow Wing county to do whatever it wants.

I can tell you that there are people in Crow Wing County who have been vigilant stewards of the public trust. It never mattered.

Please accept the gratitude of a MN tax payer. Please circulate this letter to all of your fellow council members.

Best Wishes Always.

Laura Ukura-Leir
