

HA11: Resilient Habitat for Heritage Brook Trout

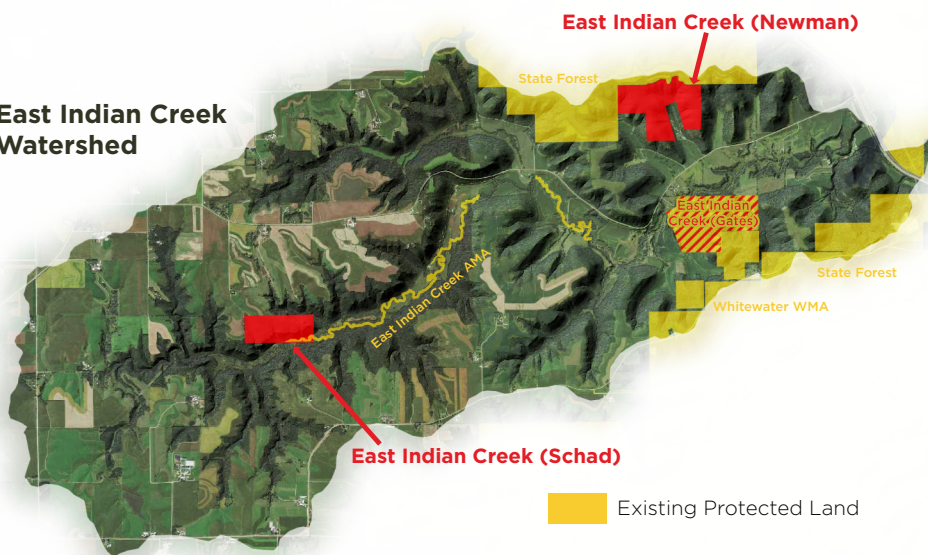

Phase 2

The Nature Conservancy

The East Indian Creek watershed stands as an example of how our partnership can combine its efforts to make an impact on focused subwatersheds. In addition to a restoration project completed on East Indian Creek by Trout Unlimited, the Minnesota Land Trust's two conservation easements under Phase I of this program, East Indian Creek (Newman) and East Indian Creek (Schad) are under option agreement. These projects will join our other existing conservation easement in the valley, East Indian Creek (Gates). These two projects will bring our total protected land in this watershed to 470 acres.
