Subject: Invasive Carp Barrier
Date: Monday, March 25, 2024 8:35:29 AM

Dear LSOHC members,

I want to communicate my strong support for the bubble barrier at Lock and Dam 5. This a bioacoustic fish fence looks like a great alternative to destroying the aquatic ecology of Minnesota: spend a few million dollars now, or annually, ten million in the future. Please approve it, please have it erected as soon as possible!

As ever,

Owen Brown
